Features and Magic Items

Ranger3

Subclasses

Subclass: Beast Conclave

Many rangers are more at home in the wilds than in civilization, to the point where animals consider them kin. Rangers of the Beast Conclave develop a close bond with a beast, then further strengthen that bond through the use of magic.

Features

Animal Companion

Source: Revised Ranger (Animal Companion)

At 3rd level, you learn to use your magic to create a powerful bond with a creature of the natural world.

With 8 hours of work and the expenditure of 50 gp worth of rare herbs and fine food, you call forth an animal from the wilderness to serve as your faithful companion. You normally select your companion from among the following animals: an ape, a black bear, a boar, a giant badger, a giant weasel, a mule, a panther, or a wolf. However, your DM might pick one of these animals for you, based on the surrounding terrain and on what types of creatures would logically be present in the area.

At the end of the 8 hours, your animal companion appears and gains all the benefits of your Companion's Bond ability. You can have only one animal companion at a time.

If your animal companion is ever slain, the magical bond you share allows you to return it to life. With 8 hours of work and the expenditure of 25 gp worth of rare herbs and fine food, you call forth your companion's spirit and use your magic to create a new body for it. You can return an animal companion to life in this manner even if you do not possess any part of its body.

If you use this ability to return a former animal companion to life while you have a current animal companion, your current companion leaves you and is replaced by the restored companion.

Beast's Defense

Source: Revised Ranger (Beast Conclave)

At 7th level, while your companion can see you, it has advantage on all saving throw

Companions Bond

Source: Revised Ranger (Beast Conclave)

Your animal companion gains a variety of benefits while it is linked to you. The animal companion loses its Multiattack action, if it has one.

The companion obeys your commands as best it can. It rolls for initiative like any other creature, but you determine its actions, decisions, attitudes, and so on. If you are incapacitated or absent, your companion acts on its own. When using your Natural Explorer feature, you and your animal companion can both move stealthily at a normal pace.

Your animal companion has abilities and game statistics determined in part by your level. Your companion uses your proficiency bonus rather than its own. In addition to the areas where it normally uses its proficiency bonus, an animal companion also adds its proficiency bonus to its AC and to its damage rolls.

Your animal companion gains proficiency in two skills of your choice. It also becomes proficient with all saving throws. For each level you gain after 3rd, your animal companion gains an additional hit die and increases its hit points accordingly. Whenever you gain the Ability Score Improvement class feature, your companion's abilities also improve. Your companion can increase one ability score of your choice by 2, or it can increase two ability scores of your choice by 1. As normal, your companion can't increase an ability score above 20 using this feature unless its description specifies otherwise.

Your companion shares your alignment, and has a personality trait and a flaw that you can roll for or select from the tables below. Your companion shares your ideal, and its bond is always, "The ranger who travels with me is a beloved companion for whom I would gladly give my life."

Coordinated Attack

Source: Revised Ranger (Beast Conclave)

Beginning at 5th level, you and your animal companion form a more potent fighting team. When you use the Attack action on your turn, if your companion can see you, it can use its reaction to make a melee attack.

Court Functionary

Source: Background (Courtier)

Your knowledge of how bureaucracies function lets you gain access to the records and inner workings of any no-

ble court or government you encounter. You know who the movers and shakers are, whom to go to for the favors you seek, and what the current intrigues of interest in the group are.

Darkvision (60')

Source: Race

Accustomed to life underground, you have superior vision in dark and dim conditions. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light. You can't discern color in darkness, only shades of gray.

Favored Enemy

Source: Revised Ranger

Beginning at 1st level, you have significant experience studying, tracking, hunting, and even talking to a certain type of enemy commonly encountered in the wilds.

Choose a type of favored enemy: beasts, fey, humanoids, monstrosities, or undead. You gain a +2 bonus to damage rolls with weapon attacks against creatures of the chosen type. Additionally, you have advantage on Wisdom (Survival) checks to track your favored enemies, as well as on Intelligence checks to recall information about them.

When you gain this feature, you also learn one language of your choice, typically one spoken by your favored enemy or creatures associated with it. However, you are free to pick any language you wish to learn

Fighting Style (Two-Weapon Fighting)

Source: Ranger

When you engage in two-weapon fighting, you can add your ability modifier to the damage of the second attack.

Fire Resistance

Source: Race (Fire Genasi)

You have resistance to fire damage.

Fleet of Foot

Source: Revised Ranger

Beginning at 8th level, you can use the Dash action as a bonus action on your turn.

Greater Favored Enemy

Source: Revised Ranger

At 6th level, you are ready to hunt even deadlier game. Choose a type of greater favored enemy: aberrations, celestials, constructs, dragons, elementals, fiends, or giants.

You gain all the benefits against this chosen enemy that you normally gain against your favored enemy, including an additional language. Your bonus to damage rolls against all your favored enemies increases to +4.

Additionally, you have advantage on saving throws against the spells and abilities used by a greater favored enemy.

Natural Explorer

Source: Revised Ranger

You are a master of navigating the natural world, and you react with swift and decisive action when attacked. This grants you the following benefits:

- You ignore difficult terrain.

- You have advantage on initiative rolls.

- On your first turn during combat, you have advantage on attack rolls against creatures that have not yet acted.

In addition, you are skilled at navigating the wilderness. You gain the following benefits when traveling for an hour or more:

- Difficult terrain doesn't slow your group's travel.

- Your group can't become lost except by magical means.

- Even when you are engaged in another activity while traveling (such as foraging, navigating, or tracking), you remain alert to danger.

- If you are traveling alone, you can move stealthily at a normal pace.

- When you forage, you find twice as much food as you normally would.

- While tracking other creatures, you also learn their exact number, their sizes, and how long ago they passed through the area.

Primeval Awareness

Source: Revised Ranger

Beginning at 3rd level, your mastery of ranger lore allows you to establish a powerful link to beasts and to the land around you.

You have an innate ability to communicate with beasts, and they recognize you as a kindred spirit. Through sounds and gestures, you can communicate simple ideas to a beast as an action, and can read its basic mood and intent. You learn its emotional state, whether it is affected by magic of any sort, its short-term needs (such as food or safety), and actions you can take (if any) to persuade it to not attack.

You cannot use this ability against a creature that you have attacked within the past 10 minutes.

Additionally, you can attune your senses to determine if any of your favored enemies lurk nearby. By spending 1 uninterrupted minute in concentration (as if you were concentrating on a spell), you can sense whether any of your favored enemies are present within 5 miles of you. This feature reveals which of your favored enemies are present, their numbers, and the creatures' general direction and distance (in miles) from you.

If there are multiple groups of your favored enemies within range, you learn this information for each group.

Reach to the Blaze

Source: Race (Fire Genasi)

You know the produce flame cantrip. Once you reach 3rd level, you can cast the burning hands spell once with this trait as a 1st-level spell, and you regain the ability to cast it this way when you finish a long rest. Constitution is your spellcasting ability for these spells.

Magic Items

Spell Descriptions

Ranger3

Animal Friendship

Enchantment Level 1

Casting Time: 1 action

Duration: Instantaneous

Range: 30 feet

Components: V, S, M (A morsel of food)

This spell lets you convince a beast that you mean it no harm. Choose a beast that you can see within range. It must see and hear you. If the beast's Intelligence is 4 or higher, the spell fails. Otherwise, the beast must succeed on a Wisdom saving throw or be charmed by you for the spell's duration. If you or one of your companions harms the target, the spell ends.

At Higher Levels: When you cast this spell using a spell slot of 2nd level or higher, you can affect one additional beast for each slot level above 1st.

Barkskin

Transmutation Level 2 (concentration)

Casting Time: 1 action

Duration: Concentration, up to 1 hour

Range: Touch

Components: V, S, M (A handful of oak bark)

You touch a willing creature. Until the spell ends, the target's skin has a rough, bark-like appearance, and the target's AC can't be less than 16, regardless of what kind of armor it is wearing.

Daylight

Evocation Level 3

Casting Time: 1 action

Duration: 1 hour

Range: 60 feet

Components: V, S

A 60-foot-radius sphere of light spreads out from a point you choose within range. The sphere is bright light and sheds dim light for an additional 60 feet.

If you chose a point on an object you are holding or one that isn't being worn or carried, the light shines from the object with and moves with it. Completely covering the affected object with an opaque object, such as a bowl or a helm, blocks the light.

If any of this spell's area overlaps with an area of darkness created by a spell of 3rd level or lower, the spell that created the darkness is dispelled.

Fog Cloud

Conjuration Level 1 (concentration)

Casting Time: 1 action

Duration: Concentration, up to 1 hour

Range: 120 feet

Components: V, S

You create a 20-foot-radius sphere of fog centered on a point within range. The sphere spreads around corners, and its area is heavily obscured. It lasts for the duration or until a wind of moderate or greater speed (at least 10 miles per hour) disperses it.

At Higher Levels: When you cast this spell using a spell slot of 2nd level or higher, the radius of the fog increases by 20 feet for each slot level above 1st.

Stoneskin

Abjuration Level 4 (concentration)

Casting Time: 1 action

Duration: Concentration, up to 1 hour

Range: Touch

Components: V, S, M (Diamond dust worth 100 gp, which the spell consumes)

This spell turns the flesh of a willing creature you touch as hard as stone. Until the spell ends, the target has resistance to nonmagical bludgeoning, piercing, and slashing damage.

Tree Stride

Conjuration Level 5 (concentration)

Casting Time: 1 action

Duration: Concentration, up to 1 minute

Range: Self

Components: V, S

You gain the ability to enter a tree and move from inside it to inside another tree of the same kind within 500 feet. Both trees must be living and at least the same size as you. You must use 5 feet of movement to enter a tree. You instantly know the location of all other trees of the same kind within 500 feet and, as part of the move used to enter the tree, can either pass into one of those trees or step out of the tree you're in. You appear in a spot of your choice within 5 feet of the destination tree, using another 5 feet of movement. If you have no movement left, you appear within 5 feet of the tree you entered.

You can use this transportation ability once per round for the duration. You must end each turn outside a tree.
